

# Let's Talk Trees

Get answers to your tree questions and learn how to properly plant and maintain your trees at this free event.

## FREE TREE TALK AND Q&A

### Making the Grade: Learn how to properly plant and maintain trees on your property from an expert

Join us for this free opportunity to speak directly with a tree expert, hosted at the Bloomfield Township Public Library. Certified arborist Steve Turner will draw on his extensive knowledge of trees to discuss stem girdling roots, proper planting techniques, over-mulching and how to fix, and when to give up and replant. Following the lecture, weather permitting, attendees will tour the library grounds and the 20 species of trees on site.

Mr. Turner has been a working arborist for more than 30 years. He has taught arboriculture at Oakland Community College, has been a columnist for Michigan Gardener for 25 years, and sits on the Board of Directors for ReLeaf Michigan, the only statewide nonprofit tree planting and education organization.

The event is free and registration is not required.
