

Risk of Wildfire & Michigan's Wildland-Urban Interface

How can homeowners prepare for the unexpected wildfire.

FREE WEBINAR

Wildfire is an integral component of many Michigan landscapes. However, as we know, wildfire and civilization don't often mix well. Learn about Firewise practices in your home landscape, to protect your property and life.

Dan Laux is the State Wildland Fire Supervisor for the Michigan Department of Natural Resources. Dan has over 30 years of experience in wildfire prevention and response nationally, coordinating prescribed burns in the state, and emergency management. His presentation will discuss the threat of wildfire in Michigan and what homeowners can do to protect their home and property.

Topics to include:

- What is the Wildland-Urban Interface
- Danger of Wildfire in Michigan
- How to maintain a Firewise home landscape
- What can homeowners do to prepare for wildfire

**ISA and SAF credits pending.*
