Make a difference in a few hours that can last decades! ReLeaf Michigan, a non-profit tree organization, in collaboration with the city of Wyandotte and with funding from the DTE Foundation will be planting 20 trees in BASF Waterfront Park on Saturday, September 25th. The planting will increase the overall tree canopy in the park built on reclaimed factory land while providing significant health and environmental benefits.

ReLeaf Michigan's tree experts will be there to show volunteers how to plant a tree and oversee the event. Covid protocols will be followed. Masks and gloves are recommended. Please wear closed-toe shoes, clothes you don't mind getting dirty and bring a shovel if you have one. Families are welcome! Event occurs rain or shine (we're a hearty group!). No planting experience necessary. We hope to see you there!
