

Native Trees of Michigan

FREE HOMEOWNER PRESENTATION

Which native trees are the best for your home?

What exactly is a native plant? How do you identify which ones are the best for your yard? And what native plants do you already have? These questions and more will be answered in this free presentation from ReLeaf Michigan. We'll discuss what makes a tree or shrub native and what you should be looking for when picking trees for your landscape! The presentation will be followed by a Q&A where you can get answers about your needs as a homeowner.

This presentation will be led by ISA Certified Arborist Marvin Pettway, former Campus Forester for the University of Michigan and lead project forester at ReLeaf Michigan.

All are welcome.

Please join us for this free opportunity!

ISA Credits Pending

FREE HOMEOWNER PRESENTATION!
